

STOCK LEVEL HIGHER

Market Experiences Another Day of Broad and Active Demand.

THE MOVEMENT WAS UNEVEN

Upward Tendency Interposed With Occasional Small Reactions—Closing Heavy.

(By Associated Press.)

NEW YORK, Sept. 27.—Another day of broad and active demand for stocks was experienced at the Stock Exchange, lifting still further the average level of prices. The movement showed some variety and irregularity, the upward tendency being decidedly uneven and interposed with occasional small reactions. Union Pacific and United States Steel preferred were conspicuously strong and active, and two stocks so representative of general conditions and dependent upon interests so widespread necessarily had a large influence in determining the general tone of the market by the sympathy their strength exerted. The reputation of the low corn crop estimate by President Taft, of Great Northern and Northern Securities, seemed to be ignored, and a sharp advance in Northern Securities, said to be a London account, was one of the features of the day. There were some conspicuous exceptions to the general advancing tendency, made the more so by the notable strength which has characterized them recently. Atchafalaya was a marked example, its movement being narrow throughout. The stated need for additional capital in the annual report came in for much discussion. The August statement of net earnings was also disappointing. On the other hand, the August statement of the Chesapeake and Ohio, the Central of Georgia and the St. Louis Southwestern were considered highly satisfactory. The reaction in the latter information that the common dividend would be passed. There were reactions running to a point in some of the leaders before the day ended, and the closing was heavy.

Sterling exchange advanced, although the prospect is for easier money in London. The dollar advanced slightly in the exchange market. Money was distinctly easier in this market in spite of the continued heavy outflow to the interior.

Bonds were firm. Total sales, par value, \$5,335,000. United States 3s advanced 1-8, and the new 3s declined 1-8 per cent. on.

The total sales of stocks for the day amounted to 72,000 shares.
